The following is an examiner's statement of reasons for allowance: the preliminary amendments clarify the amount of toner having a circularity above and below the desired range while the arguments filed after the final rejection along with the rule 132 declaration show the criticality of the now clarified circularity range specific to replenishing toner methods and related applications.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
